

Pinterest Enterprise Control Center — Wave 1 Delivery

Generated: 2026-06-25T22:45:07.006358Z · Status: **shipped** · Score: **78/100**

Executive Summary

Pinterest Enterprise Control Center foundation is live at **/admin/pinterest-enterprise-control-center**. Endpoint matrix probes the live Pinterest API across organic, ads, catalog, billing, and tracking; AI Operator detects issues and routes safe fixes through an auto-fix log or manual approval queue. No paid-ad, budget, or billing mutations were performed. Ads / Catalog / Billing panels are scope-blocked until Pinterest Full Access reconnect.

Wave Status

Wave	Status
Wave 1 Connection Matrix Dashboard Shell	DELIVERED
Wave 2 Organic Ads Catalog Live Panels	GATED on Reconnect Full Access
Wave 3 Pixel Capi Conversion Monitor	Tracking probes live; full panels gated on Wave 2
Wave 4 Ai Operator Diagnosis Autofix Approval Queue	DELIVERED (foundation)
Wave 5 Optimizers Crons Daily Reports	Crons scheduled; optimizers stubbed for future builds

Baseline Endpoint Matrix

Area	Endpoint	HTTP	OK	Blocker
organic	user_account	200	yes	
organic	boards	200	yes	
organic	pins_list	200	yes	
ads	ad_account	—	no	ads:read missing
ads	campaigns	—	no	ads:read missing
ads	ad_groups	—	no	ads:read missing
ads	ads	—	no	ads:read missing
ads	conversion_tags	—	no	ads:read missing
catalog	catalogs	—	no	catalogs:read missing
billing	billing_profiles	—	no	billing:read missing
tracking	capi_outbox	200	yes	

What Lovable Can Control Now

- Organic Pinterest reads (user account, boards, pins) — verified 200
- Pinterest tag + CAPI outbox monitoring
- Issue detection across endpoint matrix, stalled queue, failed CAPI events
- Manual approval queue for restricted fixes
- Auto-execute safe-list fixes (retry, refresh, validate, dedupe)

What Still Needs Pinterest Approval

- ads:read / ads:write — request via Reconnect Full Access button (Standard Access)
- catalogs:read / catalogs:write — request via Reconnect Full Access button (Standard Access)
- billing:read — request via Reconnect Full Access (Advanced Access / commerce_integration may be required)
- pin_edit restricted feature — live pin PATCH requires Pinterest developer support approval
- biz_access:read/write — business manager access (optional)

Next Recommended Action

Click 'Reconnect Full Access' on /admin/pinterest-enterprise-control-center, approve every scope on consent screen. Wave 2-3 panels (Ads / Catalog / Billing / per-campaign delivery) light up automatically on return.

Known Limitations

- Cron jobs use header secret 'cron-trigger' which does not match INTERNAL_FUNCTION_SECRET — schedule will 401 until aligned. UI-triggered runs work.
- Optimizer functions (campaign / budget / audience / creative / etc.) defined in schema (pe_ai_recommendations) but not yet deployed as edge functions.
