

Pinterest Growth AI — Wave A · Foundation + Executive Overview

Generated 2026-06-25T23:22:15.830644Z · Status: shipped · Score 82/100

Executive Summary

Wave A of the Pinterest Growth Intelligence Engine ships the foundation: 4 namespaced pga_* tables, one read-only edge function pga-overview-sync that derives every metric from existing infrastructure (sessions, funnel, orders, pins, pe_issue_log), and a new admin route /admin/pinterest-growth-ai with an Executive Overview panel and a Timeline panel. Zero existing Pinterest tables, edge functions, crons, or analytics surfaces were modified. Waves B through F (Creative/SEO/Product, Boards/Publishing/Trends/Competitor, A-B/Opportunities/Revenue/Timeline, Learning/Operator/Auto-fix/Daily, Final regression) are scaffolded in the approved plan and queued for the next runs.

Files Created

- src/pages/admin/PinterestGrowthAIPage.tsx
- supabase/functions/pga-overview-sync/index.ts

Files Edited

- src/App.tsx (added /admin/pinterest-growth-ai route)
- .lovable/plan.md (Wave A-F plan)

Database

Tables added: pga_settings, pga_executive_snapshots, pga_growth_scores_daily, pga_timeline_events

RLS: All admin-only via has_role(auth.uid(),'admin'); GRANT SELECT to authenticated, GRANT ALL to service_role.

Namespacing: All Wave A-F tables prefixed pga_ to avoid collision with dense existing pinterest_* and pe_* schemas.

Edge Functions

pga-overview-sync — Compute executive snapshot from existing data sources. No mutations to Pinterest, no fabricated metrics. paid_reach + roas reported honestly as 0 until ads scope reconnect (per project rule).

AI Usage

None in Wave A. Wave B onwards uses Lovable AI Gateway (google/gemini-3-flash-preview default).

Pinterest

Scope: Organic-only token sufficient for Wave A overview; ads/catalogs/billing remain scope-blocked and are surfaced honestly in upcoming waves.

Additive: Zero edits to pinterest_* tables, pinterest-* functions, pe_* tables, pe-* functions, or any analytics emit path.

Quality Control

typecheck: tsgo clean after route + page added.

regression: Existing /admin/pinterest-health, /admin/pinterest-enterprise-control-center, /admin/pinterest-control-center untouched.

fabricated_metrics: None. All metric sources documented in source_breakdown column on every snapshot row.

Next Recommendations

HIGH

- Run Wave B (Creative + SEO + Product Intelligence)
- Run Wave C (Boards + Publishing + Trends + Competitor)
- Run Wave E AI Operator + Daily Report (closes the autonomy loop)

MEDIUM

- Run Wave D (A/B + Opportunities + Revenue Forecasts + Timeline UI)

LOW

- Final regression + 7 closing reports in Wave F
